of Ergonomics

The reality and prospects of working conditions in Algeria - The health sector as a model

Under the slogan: Awareness, preventive culture, economy, civilisation.
[24-26 June 2023, Conference auditorium, University of Algiers 2]

CALL FOR PARTICIPATION

The Prevention and Ergonomics Laboratory at the University of Algeria 2, Abou El-kacem Saadallah, is organizing, in cooperation with the Algerian Association of Ergonomics a national conference on: The reality and prospects of working conditions in Algeria -The health sector as a model, under the slogan: Awareness, Preventive Culture, Economy, civilisation, from June 26 to 28, 2023. All researchers and specialists in the field are invited to participate with their research work of research and their experiences.

Problematic of the conference:

Working conditions are the environment in which employees live in their workplace, which is characterized by physical, environmental, organizational, social and psychological components, and usually has a strong impact on employee, behavior, health, safety, motivation at work, and thus on the performance of the organization. The work environment also refers to all the physical and human elements that are likely to affect the worker in his daily tasks. In addition, the workplace environment refers to the safety and hygiene conditions in the building. Algeria is making continuous efforts and allocating material and human capabilities. It has also prepared an arsenal of laws and legislative decrees in order to advance the health system and elevate it to the rank of international standards, which are linked in particular to basic gains and objectives such as: the elimination of epidemics, free medicine, neighbourhood health, school health, and through the increasing number of health centres and hospitals across the country. The same applies to other sectors such as the education sector, the industrial sector, the transport sector...etc. However, the results achieved on the ground may not reflect the available material and human capabilities supported by regulatory and incentive laws and decrees. If we take the health sector, for example. Despite the dedication of many different medical wires, health and nursing personnel to provide the best services, many complain about the lack of appropriate working conditions to provide the required or expected health services at the right time. Especially in front of the increasing protests of patients and their families and their dissatisfaction with the services provided by the health sector. This was evident in the problems and issues reported almost daily by various media and social media, which may be serious abuses that have nothing to do with the expected values and principles in the health sector, which may amount to the use of physical violence, not to mention verbal violence. It may even end up by reaching the courts or commit crimes.

So, the question therefore arises: about the reality and prospects of working conditions in Algeria in general and the health sector in particular. Does the latter really suffer from the lack of suitable working conditions to provide the required health services? The increase in the number of patients compared to the available human or material capabilities? Or to negligence at work? Or to

the lack of material and moral incentives for the various health professional? Or to poor communication? Or to the overlapping of powers and ambiguity of roles between managers and health workers? Or to poor management and coordination in general? Or because of the loss of citizen confidence in the sector? Or to prejudices that this citizen may convey when heading to the health sector? Or because of the lack of respect for the laws governing the sector, whether by health sector employees or citizens? And what is the impact of all this on the quality of services expected to be provided? Based on these questions, a national conference was proposed on: the reality and prospects of working conditions in Algeria - the health sector as a model, under the slogan: awareness, preventive culture, economy, civilisation.

Conference objectives:

1. Diagnosis of working conditions.
2. Diagnosis of occupational risks (physical, psychological, social and health).
3. Highlight the effectiveness of ergonomics in improving working conditions.
4. Promoting the preventive culture.
5. Contribute to strengthen the means of communication between the university and the socio-economic world.

Conference topics:

- 1: Diagnosis of working conditions.
2. The effects of available human and material capabilities on working conditions.
- 3: Diagnosis of occupational risks (physical, psychological, social) in various sectors.
- 4: The organization of working time and hours and their implications for the quality of services.
- 5: The role of moral and material incentives at work.
- 6: Ways to promote preventive culture.
- 7: Highlight the effectiveness of ergonomics in improving working conditions.
- 8: Mechanisms to keep pace with development and modern management in the work field.

Participants:

- ✓ Professors, researchers, university students and research centres and specialized institutes.
- ✓ Medicals Doctors, nurses and Health specialists.
- ✓ Heads of hospitals and medicals centres and all those interested in health sector affairs and working conditions in general.
- ✓ Design engineers, prevention engineers and industrial safety specialists.
- ✓ Administrators and specialists in the human resources.
- ✓ Managers and staff of different economic and social institutions.
- ✓ Relevant organizations, businessmen and all those interested in working conditions.

Participating conditions:

- ✓ The research must be related to one of the axes of the seminar and the research work must not be the subject of a previous publication or submission to another scientific act.
- ✓ Research is presented in Arabic, French and English, provided the language is very strong.
- ✓ Research must be characterized by seriousness and modernity, relying on scientific methodological rules and on modern references.
- ✓ The number of pages of the contribution must not exceed 20 pages according to the model of the seminar (Template) to be consulted on : <https://www.asjp.cerist.dz/revues/448/uploads/edit>
- ✓ Priority is given to practical research work and accepted articles may be published in the Journal de Prevention & Ergonomie.
- ✓ If many items arrive in the same axis, Priority is given according to the date on which they were sent.
- ✓ Sending the participation form with contribution before **May 10, 2023**, via the E-mail below.
- ✓ **The seminar will provide accommodation for contributors (only one per intervention) from remote Districts, if the laboratory obtains the necessary financial sources.**
- ✓ Travel and transportation costs are the responsibility of the contributor

Important dates:

- ✓ The deadline for receiving the full research papers is: **May 10, 2023**.
- ✓ Final response to accept the interventions and send invitations before: **01 June 2023**
- ✓ Abstracts and interventions should be sent to the Chairman of the Scientific Committee of the conference, Prof. Boudrifa Hamou, via the e-mail shown below.

Scientific committee:

Surname Last name	Grade	Institution
1. Pr. Boudrifa Hamou	professor	University of Algiers2
2. Pr. Mokdad Mohamed	professor	Université de Bahrein.
3. Pr. Mébarki Bouhafs	professor	University of Oran2
4. Pr. Bouabdallah Lahcène	professor	University of Sétif2
5. Maamria Bachir	professor	University of Batna2
6. Pr. Bahmed Lylia	professor	University of Batna1
7. Pr. Aissi Mohamed	professor	E.N.S. of Kouba
8. Pr. Ait Hamouda Karima	professor	University of Algiers2
9. Pr. Meziani Fatiha	professor	University of Algiers2
10. Pr. Namouni Mourad	professor	University of Blida2
11. Meziani Lounes	professor	University of Ourgla
12. Pr. Boukabous Ahmed	professor	Nat Inst of Youth and Sports
13. Pr. Hayette Benmessaoud	professor	Head of Occup Med Department, CHE, Bab El Oued
14. Pr. Benkhelifa Mahmoud	professor	University of Algiers2
15. Pr. Dhiyf Zine eddine	professor	University of Msila
16. Pr. Ouaz Meriem	professor	Hopital de Rouiba Université d'Alger1
17. Pr. Achoui Abdelhamid	professor	University of Algiers2
18. Pr. Keffan Salim	professor	University of Sétif2
19. Pr. Boutebal Saad Eddine	professor	University of Khemis Miliana
20. Pr. Bouzazoua Mostefa	professor	University of Algiers2
21. Pr. Bensedik Aissa	professor	University of Algiers2
22. Pr. Touil Mohamed	professor	University of Ghardaia
23. Pr. Sahraoui Wafia	professor	University of Algiers2
24. Pr. Charifi Hana	professor	University of Algiers2
25. Pr. Slimani Sabrina	professor	University of Constantine 2
26. Pr. Zegar Fathi	professor	University of Algiers2
27. Pr. Sahraoui Akila	professor	University of Algiers2
28. Pr. Grine Nadia	professor	University of Adrar
29. Pr. Lattoui Salima	professor	University of Algiers2
30. Pr. Boussena Fatima	professor	University of Algiers2
31. Pr. Bouattit Sofiane	professor	University of Skikda
32. Dr. Fasla Elhadi	Senior Lecturer A	University of Oran2
33. Dr. Mihoubi Faouzi	Senior Lecturer A	University of Blida 2
34. Dr. Hachelafi Hamid	Senior Lecturer A	University of Oran 1
35. Dr. Saadia Saadi	Senior Lecturer A	University of Batna2
36. Dr. Koussa Falima Zouhra	Senior Lecturer A	University of Continuing Education
37. Dr. Benkacemi Dhaouia	Senior Lecturer A	University of Continuing Education
38. Dr. Kadouche Mohamed	Senior Lecturer A	University of Continuing Education
39. Dr. Tiloulete Samia	Senior Lecturer A	University of Algiers3
40. Dr. Guezoui djedjiga	Senior Lecturer A	University of Algiers2
41. Dr. Chettouh Samia	Senior Lecturer A	University of Batna2
42. Dr. Mhamed Bengharbi	Senior Lecturer A	University of Tlemcen
43. Dr. Oubrahem Ouiza	Senior Lecturer A	University of Tiaret
44. Dr. Hiouani Karima	Senior Lecturer A	University of Oum El Bouaghi
45. Dr. Maaref Souad	Senior Lecturer A	University of Batna2
46. Dr. Argoub Mohamed	Senior Lecturer A	University of Batna2
47. Dr. Bekraoui Abdelali	Senior Lecturer A	University of Adrar
48. Dr. Benkhaled Abdelkarim	Senior Lecturer A	University of Adrar
49. Dr. Sahel Abderahmen	Senior Lecturer A	University of Bechar
50. Dr. Smati Hatem	Senior Lecturer A	University of Biskra

51.	Dr. Salah Eddine Houcem	Assistant Professor Occup Med	University of Algiers1
52.	Dr. Bourji Youcef	Head of Occup Med Depart	Hopital of Ain Témouchent
53.	Dr. Keniche Said	Senior Lecturer A	University of Mostaganem
54.	Dr. Brihoum Adel	General practitioner	SONATRACH
55.	Dr. Khetib zoulikha	Senior Lecturer A	University of sidi bel Abbès
56.	Dr. HadeF Rania	Senior Lecturer A	University of Skikda
57.	Dr. Benrezkallah Latifa	Senior Lecturer A	University of Tlemcen
58.	Dr. Hamdada Leila	Senior Lecturer A	University of Tiaret
59.	Dr. ELMAHI Zoubida.	Senior Lecturer A	University of Tiaret
60.	Dr. KHETTAB Hocine	Senior Lecturer A	University of Tizi Ouzou
61.	Dr. : KADDOURI	Senior Lecturer A	University of Adrar
62.	Dr. Ababou Yazid	Senior Lecturer A	University of Chlef
63.	Dr. Bouhara Hana	Senior Lecturer A	University of sidi bel Abbès
64.	Dr. Benyahia Sabrina	Senior Lecturer A	University of Blida 2
65.	Dr. mansour-boubekeur	Senior Lecturer A	University of Eloued
66.	Dr. FERNANE Malika	Assistant Professor Occup Med	Hopital of Rouiba University of Algiers1
67.	Dr. Tiar Fatiha	Assistant Professor Occup Med	Dir de l'Inst Nat de Prév des Risq Prof
68.	Dr. Merabti Adel	Senior Lecturer A	University of Biskra

Committee of Organisation:
